OFFICIAL DIGITAL AGENCY PORTAL: ELAVATEX.COM • ENTERPRISE CAPABILITIES DECK

Engineering High-Yield Digital Infrastructure For Modern Enterprise & Funded Scaleups.

Headquartered in Bengaluru's technology corridor, ElavateX is an elite digital engineering studio partnering with global founders, funded startups, and enterprise brands. We architect custom Next.js web applications, fluid mobile ecosystems, and high-yield automated marketing funnels that turn traffic into verified enterprise revenue.

About the Firm & Global Footprint

Headquartered at Carmelaram, Bengaluru, ElavateX operates with a distributed engineering pod model delivering mission-critical web applications, native mobile apps, and automated marketing funnels across North America, EMEA, and APAC. We operate with strict NDAs and deliver full source IP transfer.

The Anti-Agency Engineering Thesis

Traditional agencies sell bloated WordPress themes, junior billable hours, and bureaucratic middlemen. ElavateX operates as an agile engineering laboratory: 100% custom handwritten code, sub-second global CDN latency, direct client access to principal developers, and guaranteed 10 to 21-day deterministic delivery sprints.

100	60 FPS	0.12s	100%
Core Web Vitals	**Native Mobile Flow**	**Sub-Second Load**	**Client IP Transfer**
Verified Google Score	Fluid UX Animation	Global Edge CDN	Full Source Code Ownership

Zero Templates • 100% Custom Engineered Code

We strictly reject slow WordPress themes and commercial page builders. Every single line of React, Next.js 14, and Flutter code is hand-crafted for your exact business logic to maximize conversion and cybersecurity.

Direct Senior Developer Access • 10 to 21-Day Sprints

No pushy sales reps or middleman account managers. You collaborate directly with senior full-stack engineers in dedicated WhatsApp and Slack groups, reviewing live staging links every week.

Lead-Generating Funnels • Flat 5% Preferred Rate

We build direct lead-routing pipelines straight to your WhatsApp and CRM. First-time clients receive an instant Flat 5% discount across Web, Mobile & Social Media projects plus a 30-day post-launch warranty.

ENTERPRISE SECTOR FOOTPRINT: Enterprise AI • EdTech Networks • Luxury Real Estate • FinTech • Global E-Commerce • Conversational Automation

ENGINEERING DISCIPLINES & ENTERPRISE SPECIFICATIONS

Full-Lifecycle Software Engineering & Growth Suites

Custom architectures engineered for conversion, throughput, sub-second latency, and fault-tolerant cloud operations.

High-Performance Web Development

Modern web applications and enterprise landing architectures engineered with Next.js 14 and React for sub-second speeds, SEO domination, and maximum conversion.

- ✓ Custom React / Next.js Server Components (RSC)
- ✓ 100/100 Google Core Web Vitals Audited
- ✓ Headless CMS, SaaS & E-Commerce Engines
- ✓ Global Edge CDN & Serverless Cloud Deployment

Next.js 14 | React | TypeScript | Tailwind CSS | Node.js | Vercel Edge

Mobile Application Development

Native and cross-platform iOS & Android apps engineered with Flutter and React Native. Smooth 60 FPS motion, offline caching, and real-time cloud data sync.

- ✓ Dual-Platform Launch (Apple App Store & Play Store)
- ✓ Offline-First Local Data Persistence (SQLite/Hive)
- ✓ Biometric Security, Push Notifications & Deeplinks
- ✓ Micro-Interactions & 60 FPS Native Gestures

Flutter | React Native | Swift (iOS) | Kotlin | Firebase | REST & GraphQL

Social Media Engineering & Growth

Data-backed social media curation, 3D cinematic motion reels, and targeted Meta & Google ad campaigns engineered to convert impressions into paying pipeline.

- ✓ Cinematic Motion Reels & Visual Brand Curation
- ✓ Multi-Channel Paid Ad Campaigns (Meta & Google)
- ✓ Organic Authority & B2B Community Building
- ✓ Verifiable ROAS & Transparent Conversion Reporting

Meta Ads | Google Ads | Motion Graphics | Instagram Reels | Brand Strategy

AI Automation & Autonomous Workflows

Bespoke software automation, WhatsApp Business Cloud API chatbots, CRM integrations, and serverless cloud infrastructure designed to run operations on autopilot.

- ✓ WhatsApp Business API Chatbots & Drips
- ✓ Automated CRM Ingestion & Instant Routing
- ✓ Stripe, Razorpay & Global Payment Hooks
- ✓ Custom Python & Node Cloud Microservices

WhatsApp API | Python | Cloud Firestore | Stripe | Webhooks | Docker

ENTERPRISE MULTI-TIER TECHNOLOGY MATRIX

Zero Legacy Dependencies • 100% Modern Stack

FRONTEND TIER	MOBILE TIER	CLOUD & EDGE	DATABASE & APIS
Next.js 14, React 19, TypeScript, Tailwind CSS, WebGL, Vite	Flutter SDK, React Native, Swift iOS, Kotlin Android, Offline-First	Vercel Enterprise, Cloudflare Edge, AWS (Lambda/S3), Docker, CI/CD	PostgreSQL, MongoDB, Redis, GraphQL, REST, WhatsApp Cloud API

ENTERPRISE SLA COMMITMENTS:

✓ 99.98% High Availability Uptime | ✓ <200ms Global Edge TTFB | ✓ 100% Unconditional IP Ownership | ✓ SOC2 & OWASP Security Baseline

FLAGSHIP CASE STUDIES & PRODUCTION DEPLOYMENTS

Selected Client Case Studies & Production Impact

Live systems deployed for international brands, technology firms, and multi-portal educational ecosystems.

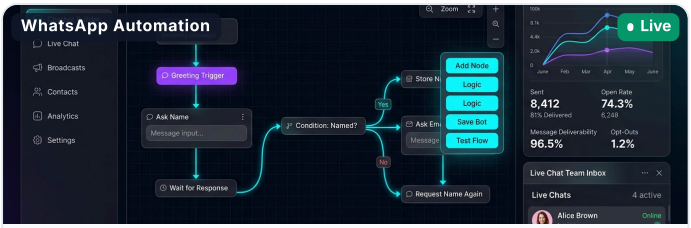

TRAIT Innovation

traitinnovation.com ↗

Ultra-modern digital platform built for a deep-tech enterprise AI firm. Designed with 3D product narratives, responsive layouts, and an automated lead intake engine.

Core Tech: **Next.js / AI Cloud** Speed: **100/100 Core Web Vitals**

HelloBotz

hellobotz.com ↗

Conversational marketing portal and automation system for high-volume WhatsApp business marketing, campaign triggers, and automated lead qualification.

Core Tech: **WhatsApp API / Cloud** Uptime: **99.98% High Availability**

The Edu Consultant

AGILE DELIVERY ROADMAP & COMPARATIVE ADVANTAGE

Deterministic Delivery Framework & Engagement Terms

A battle-tested 4-stage engineering sprint model backed by written guarantees and full source IP transfer.

PHASE 01 • 25% MILESTONE

Architecture & Scope Lock

1-on-1 strategy call, technical blueprint, database schema modeling, user journeys, and scope lock.

PHASE 02 • 35% MILESTONE

Rapid Sprint Engineering

Clean-code implementation with continuous staging updates and weekly live milestone demos on WhatsApp.

PHASE 03 • QA & HARDENING

Speed & Security QA

100% Core Web Vitals audit, military-grade CSP/CORS security, cross-device browser QA, and accessibility.

PHASE 04 • 40% HANDOVER

Launch, 100% IP & Warranty

Global Edge CDN deployment, 100% GitHub code transfer, and 30 days of free post-launch warranty & AMC.
