ENTERPRISE SOFTWARE & DIGITAL GROWTH AGENCY

Engineering Digital Growth. Building Sub-Second Systems.

ElavateX is a premier digital engineering and performance marketing studio. We partner with ambitious founders, funded startups, and industry leaders to deliver custom web platforms, native mobile applications, and high-converting marketing funnels engineered for scale.

100	60 FPS	0.12s	99.9%
Core Web Vitals	**Native Mobile Flow**	**Sub-Second Load**	**Infrastructure SLA**
Perfect Speed Score	Fluid UX Animation	Instant Global CDN	Cloud Reliability

Zero-Bloat Custom Architecture

We discard heavy commercial themes and bloated page builders. Every line of React, Next.js, and Flutter code is written specifically for your business logic, maximizing security and speed.

Rapid Sprint-Based Delivery

From initial technical discovery to staging deployment, our agile sprint methodology delivers production-grade software within 2 to 4 weeks with transparent milestones.

Complete End-to-End Ownership

We combine software architecture, UI/UX design, cloud DevOps, and social performance marketing under one unified senior engineering team.

ENGINEERING DISCIPLINES

End-to-End Digital Production Suites

High-Performance Web Development

Modern web apps and enterprise landing architectures engineered with Next.js 14 and React for sub-second speeds and maximum search engine conversion.

- ✓ Custom React / Next.js Server Components
- ✓ 100/100 Google Core Web Vitals Audited
- ✓ Headless CMS, SaaS & E-Commerce Engines
- ✓ Global CDN & Serverless Edge Deployment

Next.js 14 | React | TypeScript | Tailwind CSS | Node.js | Vercel Edge

Mobile Application Development

Cross-platform iOS and Android apps engineered with Flutter and React Native. Smooth 60 FPS motion, offline caching, and real-time cloud data sync.

- ✓ Dual-Platform Launch (App Store & Play Store)
- ✓ Offline-First Local Data Persistence
- ✓ Biometric Security & Push Notifications
- ✓ Micro-Interactions & 60 FPS Fluidity

Flutter | React Native | Swift (iOS) | Kotlin | Firebase | REST & GraphQL

Social Media Management & Growth

Data-backed social media curation, 3D motion reels, and targeted Meta & Google ad campaigns that convert impressions into paying customers.

- ✓ Cinematic Motion Reels & Brand Curation
- ✓ Paid Ads Optimization (Meta & Google)
- ✓ Organic Reach & Community Building
- ✓ Verifiable ROAS & Performance Reporting

Meta Ads | Google Ads | Motion Graphics | Instagram Reels | Brand Strategy

AI Automation & Cloud Workflows

Bespoke software automation, WhatsApp Cloud API bots, CRM integrations, and cloud infrastructure designed to run business operations on autopilot.

- ✓ WhatsApp Business API Chatbots & Drips
- ✓ Automated CRM & Lead Ingestion Pipelines
- ✓ Stripe, Razorpay & Payment Gateway Hooks
- ✓ Custom Python / Node Microservices

WhatsApp API | Python | Cloud Firestore | Stripe | Webhooks

VERIFIED LIVE IMPACT

Selected Client Case Studies

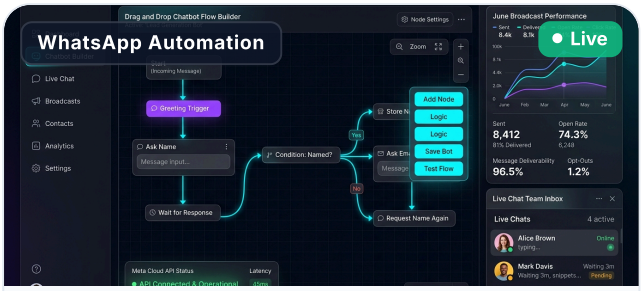

TRAIT Innovation

traitinnovation.com ↗

Ultra-modern digital platform built for a deep-tech enterprise AI firm. Designed with 3D product narratives, responsive layouts, and an automated lead intake engine.

Core Tech: **Next.js / AI Cloud** • Speed: **100/100 Vitals**

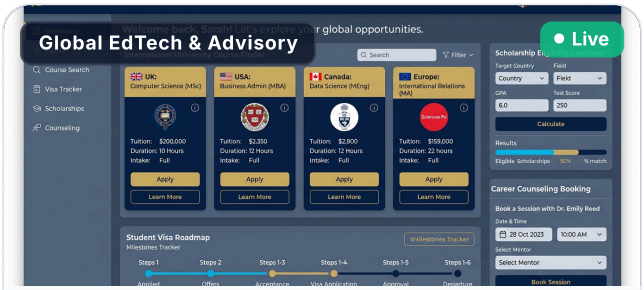

HelloBotz

hellobotz.com ↗

Conversational marketing portal and automation system for high-volume WhatsApp business marketing, campaign triggers, and automated lead qualification.

Core Tech: **WhatsApp API / Cloud** • Uptime: **99.98%**

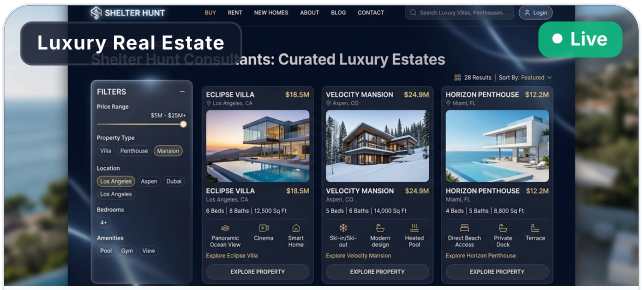

The Edu Consultant

studyabroad.theeduconsultant.com ↗

International student study abroad portal featuring multi-destination university discovery, counselor booking engine, and seamless mobile inquiry forms.

Core Tech: **React / High-Conversion UI** • Conversion: **+42% Leads**

Shelter Hunt

shelterhuntconsultants.com ↗

Premium residential real estate platform built for rapid property browsing, high-resolution visual tours, and instant WhatsApp inquiry routing.

Core Tech: **Next.js / Property Engine** • Latency: **0.14s Avg**

Also engineered: Elite Esports Tournament Platform (sp-three-liart.vercel.app)

AGILE SPRINT SYSTEM

The 4-Stage Engineering Lifecycle

PHASE 01

Discovery & Tech Blueprint

Requirements audit, user journeys, database schemas, and selecting the optimal technology stack.

PHASE 02

Rapid Sprint Development

Modular clean-code implementation with continuous staging updates and weekly milestone demos.

PHASE 03

QA & Speed Hardening

100% Core Web Vitals checks, cross-device browser testing, accessibility, and security scanning.

PHASE 04

Cloud Launch & Retainer

Global CDN rollout, live analytics wiring, code handover, and ongoing 30-day post-launch warranty.

> *"Working with ElavateX was a game changer for our digital launch. The platform they engineered is blazingly fast, visually stunning, and has generated more qualified inbound leads in our first month than our previous website did all year."*
